MEMORANDUM FOR: Project Director

THROUGH: Project Director for Adm 

THROUGH: Project Security Officer 

THROUGH: Chairman, Ad Hoc Requirements Committee *JWR*

SUBJECT: HTAUTOMAT Requirements for Project AQUATONE Materials

1. This memorandum has been prepared to officially define HTAUTOMAT requirements for PROJECT AQUATONE materials. Most of the requested items listed below have been discussed verbally with yourself and other responsible AQUATONE officials. No objections to these requirements have been noted and all D/GP (later HTAUTOMAT) planning has been conducted on the assumption that these materials will be provided.

2. The following items are considered essential to carrying out the mission of Project AUTOMAT in the optimum exploitation of Project AQUATONE materials:

- A. Duplicate Transparent Positive - 70mm (TRACKER) *7mm film*
- B. Mission Field Track
- C. Mission Data Sheets
- D. Altitude Correction Factor - to be provided by Project AQUATONE Headquarters Aerology Section.
- E. Complete Set of Original Negatives.
- F. Complete Set of Duplicate Transparent Positives.
- G. Complete Set of Paper Contact Prints. This set should include a roll of odd numbered prints and a roll of even numbered prints from the 70mm camera and prepared on the "turnaround" printer at the processing site.
